(2) Cannabinoid Therapy Disclaimer – I am not a licensed health care professional; I am a medical cannabis coach. Coaches do not diagnose or treat disease. That's for medical physicians and other licensed healthcare professionals. I do not provide recommendations for a medical cannabis card either. Any information on this website or provided during coaching sessions is from my personal experience, education, and research. It is not to be taken as medical advice, diagnosis, or treatment.

Don't have a medical cannabis card? No problem! My services are for everyone 21 and older (and pediatric patients with parent/guardian consent) that would like medical cannabis coaching. I do not inquire about the legality of cannabis in your state of residence, that is YOUR responsibility. I am here simply to help anyone that would like guidance in their cannabis journey.

The information provided in or through our Website, Programs, Products and Services, as well as social media posts and emails, is not intended to be a substitute for professional medical advice, diagnosis or treatment that can be provided by your own Medical Provider (including doctor/physician, nurse, physician's assistant, or any other health professional), Mental Health Provider (including psychiatrist, psychologist, therapist, counselor, or social worker), registered dietitian or licensed nutritionist, or member of the clergy. We are not medical practitioners or mental health providers, and we are not holding ourselves out to be so in any capacity. Rather, we

act as trainer, educator, coach, mentor and guide, providing guidance on medical cannabis science therapy

Our intent is NOT to replace any relationship that exists, or should exist, between you or your Medical Provider, Mental Health Provider or other health care professional. You should always seek the advice of your own doctor/physician, nurse practitioner, physician's assistant, Mental Health Provider, or another health care professional regarding any questions or concerns about your specific health situation, including but not limited to possible or actual pregnancy, known or suspected food sensitivity or allergy, dietary restrictions, specific health diagnosis or any medications or supplements currently taking. I advise you to speak with your own Medical Provider or Mental Health Provider before implementing any suggestions obtained through our Website, Programs, Products and Services, blog and social media posts and emails, including but not limited to exercise, lifestyle, weight loss, food, vitamins, herbal, or homeopathic supplements; engaging in an elimination diet, detox or cleanse; meditation, deep breathing exercises or other stress management strategies; or participating in any other aspect of a weight loss, healthy eating, exercise and/or lifestyle program designed to support specific medical conditions diagnosed by a physician. You shall not disregard professional medical advice or delay seeking professional advice because of information you have read on this website or received from us. You should not stop taking any medications without speaking to your Medical Provider and/or Mental Health Provider. If you suspect that you have a medical problem, you are advised to contact your own Medical Provider or Mental Health Provider promptly.

The information contained on this website or provided through our blog, e-mails, programs, services, or products has not been evaluated by the Food and Drug Administration and is not intended to diagnose, treat, cure, or prevent any disease, or to be considered medical or psychological advice. The therapeutic potential of cannabis is still largely unexplored. We have to point out that for medical cannabis, reliable evidence of efficacy based on large randomized controlled clinical trials is available for only a few indications. Off-label and no-label prescriptions are therefore common. Therefore, the information presented on our website should not be misunderstood as a promise of healing or as a suggestion to try therapy with cannabis but is merely for your information to stimulate medical and scientific discourse.
